## **Detox with Oral Chelation: Protecting yourself from Lead, Mervury, & Other Environmental Toxins**

Garry Gordon

Detox with Oral Chelation talks about EDTA chelation therapy, the safest and most effective way to cleanse our bodies of pervasive heavy metal toxins and remove age-accelerating calcium deposits from our cardiovascular systems. The accumulating scientific evidence suggests that this mighty amino acid offers a whole range of truly remarkable health benefits. It has been shown to help prevent arteriosclerosis and cancer, improve blood circulation, lower blood pressure, reduce harmful clotting mechanisms, and remove lead and other toxic heavy metals from the body. In a day and age where astonishing new advances in medicine are made almost daily, and our vision of the future of medicine borders on the miraculous, this overlooked, inexpensive, and often misunderstood form of therapy offers us the hope that we can all live longer, healthier, and happier lives right now.
