Educational Research and Policy: How Do They Relate?

Educational Research and Policy: How do They Relate? contains the proceedings of a four-day symposium held at Wijk, Lidingo-Stockholm in June 1982.

Before presenting the papers reported at the symposium, this book first tackles the main issues in the relationship between policymaking and research. This text also elucidates models of interaction, policy systems, and policy proposals. The papers of the symposium are then presented collectively in the last part. Generalizations derived from empirical cases discussed in the symposium are also shown.
