ISO 14132-4:2002, Optics and optical instruments - Vocabulary for telescopic systems - Part 4: Terms for astronomical telescopes ISO/TC 172/SC 4

This part of ISO 14132 applies to astronomical telescopes and gives terms and definitions for astronomical telescopes only. The alphabetical indexes of terms in English, French, Russian and German that are common for all published parts of ISO 14132 are published in ISO 14132-1. The definitions may be changed, if required, by introducing derivative attributes into them, revealing the meanings of the terms used, showing the objects covered by the scope of the notion being defined. These changes shall not affect the scope and contents of this part of ISO 14132. This title may contain less than 24 pages of technical content.
