Guilt-free Bottle Feeding: Why your formula-fed baby can be happy, healthy and smart Madeleine Morris

You are not a bad mother if you can't or don't want to breastfeed.

For decades mums have been told that 'breast is best', that breastfeeding is the single-most important thing we can do for our children. Despite this huge pressure on modern mums, the vast majority of us end up using formula. And we feel guilty.

In *Guilt-Free Bottle Feeding* award-winning journalist Madeleine Morris and paediatrician Dr Sasha Howard challenge the simplistic message of 'breast is best', revealing what everybody knows, but nobody says out loud – that bottle fed babies can grow up to be perfectly happy, healthy and smart.

With a thorough yet accessible analysis of health science, parenting sociology and the modern media, the authors provide a balanced, much-needed and long-overdue voice, showing mothers who don't exclusively breastfeed why they are not failures.

A mix of political and practical, *Guilt-Free Bottle-Feeding* also offers comprehensive advice on feeding, including:

- Choosing a formula, and choosing a bottle
- Sterilising and preparing a feed
- How to promote bonding while bottle-feeding
- Moving from breast to bottle, and mixed feeding

In an era where the pressure on mums is greater than ever before, *Guilt-Free Bottle Feeding* resets the conversation around infant feeding, supporting all families regardless of how they feed their babies.

This is not an anti-breastfeeding book. This is an anti-guilt book.
