Nanoparticulate Drug Delivery Systems (Drugs and the Pharmaceutical Sciences)

Nanoparticulate Drug Delivery Systems (Drugs and the Pharmaceutical Sciences)

With the advent of analytical techniques and capabilities to measure particle sizes in nanometer ranges, there has been tremendous interest in the use of nanoparticles for more efficient methods of drug delivery.

Nanoparticulate Drug Delivery Systems addresses the scientific methodologies, formulation, processing, applications, recent trends, and emerging technologies in the research of nanoparticulate drug delivery systems (NPDDS). It extensively covers applications of NPDDS— including lipid nanoparticles for dermal applications; nanocarriers for the treatment of restenosis; and for ocular, central nervous system, and gastrointestinal applications. It also explores its use as an adjuvant for vaccine development.

Supplying insight from international experts, this guide

- Discusses formulation for poorly soluble drugs
- Presents biological requirements for nanotherapeutic applications
- Demonstrates the role of nanobiotechnology in the development of nanomedicine
- Documents recent advances in nanoparticulate technology—including electrospining, formation of microcrystals, and production of liquid crystalline phases
- Examines the technology of metallic nanoparticles

Rigoberto Hamilton:

Do you have something that that suits you such as book? The guide lovers usually prefer to decide on book like comic, limited story and the biggest an example may be novel. Now, why not trying Nanoparticulate Drug Delivery Systems (Drugs and the Pharmaceutical Sciences) that give your pleasure preference will be

satisfied by reading this book. Reading practice all over the world can be said as the method for people to know world much better then how they react in the direction of the world. It can't be explained constantly that reading behavior only for the geeky person but for all of you who wants to be success person. So, for every you who want to start reading through as your good habit, it is possible to pick Nanoparticulate Drug Delivery Systems (Drugs and the Pharmaceutical Sciences) become your own starter.
