This volume presents the papers from the seventh North-European Symposium for Archaeological Textiles (NESAT), held in Edinburgh in 1999. The themes covered demonstrate a variety of scholarship that will encourage anyone working in this important and stimulating area of archaeology. From the golden robes of a Roman burial, to the fashionable Viking in Denmark, through to the early modern period and more technological aspects of textile-research, these twenty-four papers (five of which are in German) provide a wealth of new information on the study of ancient textiles in northern Europe.
