If you asked most women today what type of girl men adore and couldn't live without, they would answer that she would have to be very beautiful and attractive, blond, blue-eyed and have killer legs. While this type of woman would definitely attract a lot of attention, she actually isn't the type of woman that men adore.

While men are visual creatures and that first attraction is sparked from looks, you would be surprised to find out how much more men actually want from women. For example, a team of sociologists conducted a study, trying to understand if there was a common denominator that men found attractive in women; that one thing that would get any guy to want to go over and talk to a girl. You would never guess what the result was. No, it wasn't her breasts, her legs or her bum. In fact, it wasn't any body part below her chin and it wasn't her features, either. It was her smile. The majority of men stated that they found nothing as attractive as a woman's smile.
