Embracing the Wide Sky: A Tour Across the Horizons of the Mind

Daniel Tammet

Embracing the Wide Sky: A Tour Across the Horizons of the Mind Daniel Tammet

Owner of "the most remarkable mind on the planet," (according to *Entertainment Weekly*) Daniel Tammet captivated readers and won worldwide critical acclaim with the 2007 *New York Times* bestselling memoir, *Born On A Blue Day*, and its vivid depiction of a life with autistic savant syndrome. In his fascinating new book, he writes with characteristic clarity and personal awareness as he sheds light on the mysteries of savants' incredible mental abilities, and our own.

Tammet explains that the differences between savant and non-savant minds have been exaggerated; his astonishing capacities in memory, math and language are neither due to a cerebral supercomputer nor any genetic quirk, but are rather the results of a highly rich and complex associative form of thinking and imagination. Autistic thought, he argues, is an extreme variation of a kind that we all do, from daydreaming to the use of puns and metaphors.

Embracing the Wide Sky combines meticulous scientific research with Tammet's detailed descriptions of how his mind works to demonstrate the immense potential within us all. He explains how our natural intuitions can help us to learn a foreign language, why his memories are like symphonies, and what numbers and giraffes have in common. We also discover why there is more to intelligence than IQ, how optical illusions fool our brains, and why too much information can make you dumb.

Many readers will be particularly intrigued by Tammet's original ideas concerning the genesis of genius and exceptional creativity. He illustrates his arguments with examples as diverse as the private languages of twins, the compositions of poets with autism, and the breakthroughs, and breakdowns, of some of history's greatest minds.

Embracing the Wide Sky is a unique and brilliantly imaginative portrait of how we think, learn, remember and create, brimming with personal insights and anecdotes, and explanations of the most up-to-date, mind-bending discoveries from fields ranging from neuroscience to psychology and linguistics. This is a profound and provocative book that will transform our understanding and respect for every kind of mind.

From reader reviews:

Delores Saenz:

Do you have favorite book? When you have, what is your favorite's book? Book is very important thing for us to learn everything in the world. Each e-book has different aim or even goal; it means that publication has different type. Some people sense enjoy to spend their time and energy to read a book. These are reading whatever they consider because their hobby will be reading a book. Think about the person who don't like reading a book? Sometime, man feel need book once they found difficult problem as well as exercise. Well, probably you'll have this Embracing the Wide Sky: A Tour Across the Horizons of the Mind.

Robert Wolfe:

Nowadays reading books be a little more than want or need but also be a life style. This reading routine give you lot of advantages. The huge benefits you got of course the knowledge the rest of the information inside the book in which improve your knowledge and information. The knowledge you get based on what kind of publication you read, if you want drive more knowledge just go with education and learning books but if you want really feel happy read one together with theme for entertaining like comic or novel. Often the Embracing the Wide Sky: A Tour Across the Horizons of the Mind is kind of guide which is giving the reader unstable experience.

Rosa Milliken:

Embracing the Wide Sky: A Tour Across the Horizons of the Mind can be one of your beginning books that are good idea. Most of us recommend that straight away because this book has good vocabulary that will increase your knowledge in vocab, easy to understand, bit entertaining but nonetheless delivering the information. The writer giving his/her effort to put every word into joy arrangement in writing Embracing the Wide Sky: A Tour Across the Horizons of the Mind although doesn't forget the main stage, giving the reader the hottest in addition to based confirm resource information that maybe you can be certainly one of it. This great information may drawn you into brand new stage of crucial imagining.

Patricia Ramirez:

This Embracing the Wide Sky: A Tour Across the Horizons of the Mind is great e-book for you because the content which is full of information for you who always deal with world and also have to make decision every minute. That book reveal it information accurately using great organize word or we can say no rambling sentences inside it. So if you are read the idea hurriedly you can have whole details in it. Doesn't mean it only gives you straight forward sentences but tough core information with wonderful delivering sentences. Having Embracing the Wide Sky: A Tour Across the Horizons of the Mind in your hand like finding the world in your arm, info in it is not ridiculous a single. We can say that no publication that offer you world with ten or fifteen minute right but this reserve already do that. So , it is good reading book. Hey Mr. and Mrs. active do you still doubt this?
