What if our physical bodies were perpetually being formed upon an invisible field of information? And what if this field was one vital and integral part of the same field underlying the physical structure of our universe, holding all the information and wisdom of its past and present?

And what if, by being a knowing contributor to this field, each of us could create a blissful and peaceful future not only for ourselves and our planet, but for our whole universe?

If we are indeed, at the deepest level of our being, truly holographic--these questions may no longer be regarded as far-fetched.

Dr Robin Kelly, author of the award-winning *The Human Antenna*, explores these mind stretching concepts and speculates exactly how our developing awareness of ourselves as Human Holograms will affect every aspect of our future on this planet.

He guides us into how we can best use this information here and now to transform our lives, and to achieve optimum health.
