## **Effective Fund-Raising Management (Routledge Communication Series) Kathleen S. Kelly**

In a ground-breaking departure from existing works, almost all of which are how-to manuals based on anecdotal evidence, this is the first academic textbook on fund raising. By integrating practical knowledge with social science theory and research, it presents a comprehensive approach to the function, from its legal and ethical principles to the managerial process by which gifts are raised. Territory previously uncharted in the literature is explored, such as the historical and organizational contexts of contemporary practice. Explanations of programs, techniques, and publics introduce a new system for understanding fund raising's major concepts. Unlike efforts in established fields, most of the material represents original scholarship undertaken to produce a first-time text. The book's main purpose is to teach students about fund raising--a high-demand, high-paying occupation that will continue to expand into the 21st century as the need for trained practitioners exceeds the supply. During the last decade, fund-raising education moved into the formal classroom and away from an apprenticeship tradition of senior practitioners mentoring newcomers. Yet until now, there has not been a textbook to support this evolving professionalism. Faculty have been reluctant to define fund raising as an academic subject in the absence of a theory-based teaching resource, and courses usually have been assigned to part-time instructors hired from the practice. This textbook addresses the void. It is designed for graduate and upper-level undergraduate courses dealing with fund raising as a primary or secondary subject. Among its features, each chapter points out research gaps and opportunities--such as problems and theories for master's theses and doctoral dissertations--and ends with a list of suggested readings. The text is appropriate for the diverse academic areas in which fund raising, nonprofit management, and philanthropy are taught, including public administration, management, arts and humanities, education, social work, economics, and sociology. Because of its public relations orientation, it is particularly suited for courses offered in that discipline. Additional audiences are practitioners enrolled in professional development programs; CEOs, trustees, and others interested in self-study; and scholars who need serious literature on the subject.

PROFESSIONAL PROMO PIECE COPY.....Recently, the field of fundraising seems to have taken a giant step backward. Rather than conducting principled efforts to support common political, educational, financial, or social causes, the entire process is making headlines as a venue offering opportunities for influence peddling, corruption and self-promotion. The need for a guide to ethical fund-raising management is greater than ever. *Effective Fund-Raising Management* addresses this need. The most successful fundraisers understand why certain practices are more effective than others. What works in one situation may not work in another similar--but slightly different--situation. That is why theoretical understanding is vital to fundraising professionals. To be an expert practitioner, one must have enough theoretical understanding to adapt one's practice to a variety of situations. That is the purpose of *Effective Fund-Raising Management*--to provide the underlying theoretical and conceptual understandings that enable an effective practitioner to become an expert practitioner. Indispensable to fund-raising professionals, this invaluable resource: \* reviews the entire scope of the fund-raising profession-- from its historical antecedents to the current legal, ethical, organizational, and theoretical principles underlying its practice today;\* provides concise definitions and explanations of the fund-raising process and its position within the field of public relations;\* links effective fund-raising practices to ethical considerations; and \* examines four of the major methods of fund raising--...

#### **Major Talley:**

As a pupil exactly feel bored to help reading. If their teacher asked them to go to the library in order to make summary for some publication, they are complained. Just little students that has reading's soul or real their hobby. They just do what the trainer want, like asked to go to the library. They go to generally there but nothing reading critically. Any students feel that studying is not important, boring as well as can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore , this Effective Fund-Raising Management (Routledge Communication Series) can make you sense more interested to read.
