# In Detail

Owing to the different types of devices that offer Internet browsing today, responsive web designing has become a booming area. The heightened use of CSS3 and JavaScript libraries such as jQuery has led to shorter responsive web design times. You can now create a responsive website swiftly that works richly in any device a user might possess.

"Responsive Web Design with jQuery" is a practical book focused on saving your development time using the useful jQuery plugins made by the frontend community. Follow the chapters, and learn to design and augment a responsive web design with HTML5 and CSS3. The book presents a practical know how of these new technologies and techniques that are set to be the future of frontend web development.

This book helps you implement the concept of responsive web design in clear, gradual, and consistent steps, demonstrating each solution, and driving you to practice it and avoid common mistakes.

You will learn how to build a responsive website; right from its structure, conception, and adapting it to screen device width. We will also take a look at different types of menu navigation and how to convert text, images, and tables so as as to display them graciously on different devices. Features such as the carousel slider and form elements will also be covered, including the testing phase and the measures to create correct fallbacks for old browsers.

With "Responsive Web Design with jQuery", you will learn to create responsive websites quickly by using CSS3 and the incredible jQuery plugins. You will also learn to save your time by tailoring solutions created and tested by the community.

# Approach

"Responsive Web Design with jQuery" follows a standard tutorial-based approach, covering various aspects of responsive web design by building a comprehensive website.

# Who this book is for

"Responsive Web Design with jQuery" is aimed at web designers who are interested in building device-agnostic websites. You should have a grasp of standard HTML, CSS, and JavaScript development, and have a familiarity with graphic design. Some exposure to jQuery and HTML5 will be beneficial but isn't essential.
